Low Budded Roses, strong, field grown plants,			
<i>Frau Karl Druschki</i> ,			25 00
<i>Georg Arends</i> ,			25 00
<i>Paul's Scarlet Climber</i> ,			30 00
Rosa rugosa rubra, very strong plants, 1½ to 2 ft.,			25 00

Grafted Roses, grafted during January and February; ready for shipment April 1st, or earlier if desired. They are grafted on very strong stocks of *Multiflora japonica* and are grown in 3½ in. pots. Splendid plants for lining out Will make strong roses by Fall.

	Per 100
<i>America</i> , H. T. very large, rose-pink flowers, fragrant, bud long pointed; very free bloomer. Vigorous grower, foliage large, dark green,	\$35 00
<i>Betty Uprichard</i> , H. T., a mixture of salmon and orange. The blooms are small but most attractive, verberna scented. Vigorous grower, free from mildew,	35 00
<i>Chatillon Rose</i> , H. Pol., semi-double flowers about 1¾ in. diameter, silvery crimson with white center, resembling American Pillar. Flowers are produced in large quantities on large sprays and last very long. A very desirable novelty,	40 00
<i>Elsie Beckwith</i> , H. T., rich, glowing rosy pink, with large, bold, stiff petals, produced on strong stems; foliage dark green, shaded red, not liable to mildew; wood dark red. One of the best garden roses,	40 00
<i>Elvira Aramayo</i> , H. T., semi-double flowers of a superb intense vermillion, deeply shaded with old gold; a very distinct variety,	30 00
<i>Emily Gray</i> , H. W., large, semi-double flowers, delightfully golden yellow, shaded buff; long, tapering buds, almost like a Marechal Niel. A strong, vigorous grower with very pleasing foliage; reliably hardy; the best yellow Rambler which has ever been offered,	40 00
<i>Ideal</i> , D. Pol., a Baby Rose of great merit, decidedly an outstanding variety; flowers brilliant garnet-red, keeping their color well even in very hot weather. It is remarkably free flowering, the flowers being produced in large clusters,	35 00
<i>Lafayette</i> , H. Pol, a dwarf Polyantha with very fine brilliant crimson flowers, 2 in. and more across; the petals do not drop, thus lengthening the flowering time. The flowers are produced in great abundance on large trusses and bloom continuously from June till frost. An excellent variety for bedding and forcing,	30 00
<i>Mme. Alexandre Dreux</i> , H. T., flowers deep, brilliant golden yellow, without shading, large, full and of good form, very free flowering. Growth vigorous, erect branching. A truly superb rose of striking color, one that will prove of great distinction and merit,	40 00
<i>Mrs. Henry Morse</i> , H. T., clear bright rose, shaded vermillion, a most wonderful coloring, perfectly shaped; of great substance. The largest and most pointed of all roses of its type Excellent habit of growth, flowering marvelously free,	40 00
<i>Souv. de Georges Pernet</i> , Per, beautiful oriental red, the end of the petals cochineal carmine, shaded with yellow. Flowers large, full and globular carried on erect stems. A vigorous grower of branching habit, an abundant bloomer. One of the most promising bedding roses,	35 00
